# TETHER & DON'S Selected Seeds

1928

104 to 106 BROADWAY  
PATERSON, N. J.

THE varieties of Vegetable Seeds, Flower Seeds, Bulbs and Roots offered in this Catalogue, present an exceptional assortment of carefully chosen strains, produced by specialists in various parts of the Continents of America and Europe.

Always mindful that what we offer and recommend, are to be accepted by those who plant them, as the nucleus of a gardening year of "bounty" and "beauty," we must give them the very highest quality it is possible for us to procure, and we have spared no effort in accomplishing this.

The growers who have produced these various stocks are well-known to us; We have implicit confidence in their word, that the goods we purchase are true to type and to name, and will produce "perfection quality" whether it be a vegetable or flower.

Order Early: We urge our patrons to send in their orders as soon as possible after this catalogue is received; this allows us ample time to give careful attention to the filling and dispatching of same, before the "crowded hours" tax our energy and resources to the limit, when the sowing season actually commences.

While we exercise every possible care to send out only such goods as we believe will produce satisfactory results, we abide by the "Non Warranty Clause" adopted by all American Seed Houses; in that:

"We give no warranty as to description, quality or productiveness of any seeds, bulbs or plants we send out and will not be in any way responsible for the crop. All orders for articles named in this catalogue will be executed on these conditions only."
